ACCOUNTING PROFESSIONALS

“Being part of the CPA Firm Management Association (CPAFMA) has been and continues to be a great experience for Rightworks as an IT services and consulting partner to CPA firms. CPAFMA has facilitated introductions to a significant number of cloud clients and referrers to our IT advisory practice through a multitude of education opportunities providing us direct access to Firm Managers, which are often key decision makers in accounting firms. I can’t recommend joining this association enough—it’s a wonderful community that offers great opportunities for networking, collaboration, and business growth.
